

Dear Friends of Heart to Heart Anatolia,

Your valuable donations are used primarily to fund disadvantaged students from Anatolian origin (from Turkey) to pursue their graduate studies for master's degree (MS), and Ph.D., as well as MD in the United States. The students are selected primarily based on their qualifications with regards to academic achievements, their family roots embedded in Anatolia, and their financial situation. Under unusual circumstances H2HA may consider financial support for qualified undergraduate students, including English language courses to enable them to pass TOEFL tests if they have been already admitted to a graduate program.

Please find attached the pdf file under news to learn more about H2HA-Acholarship awardees.
